SVITLANA CHUKUT, DSc

PUBLIC ADMINISTRATION | DIGITAL GOVERNANCE | E-DEMOCRACY | AI

Kingston, Ontario, Canada

LinkedIn | Google Scholar | ORCID | Web of Science

DISTINCTIVE ACADEMIC PROFILE

Interdisciplinary scholar, academic leader, and research-to-policy practitioner whose career connects social philosophy, public administration, information policy, digital governance, e-democracy, and artificial intelligence. Holds a Doctor of Science (DSc) in Public Administration and a PhD in Social Philosophy, with more than 25 years of university teaching, research, graduate supervision, curriculum development, academic leadership, and public-sector engagement across Ukraine and Canada.

A distinctive feature of this profile is the sustained integration of scholarship with institutional and policy practice: from early work on information society and public communication to national e-governance policy development, digital public services, smart governance, digital inclusion, wartime resilience, and current research on AI in public administration.

Signature Contributions

- **Two decades of leadership in digital governance and e-democracy.** Built a sustained research and teaching agenda in e-governance, e-democracy, digital public services, interoperability, electronic parliament, smart cities, information policy, and digital transformation, including university courses, a Master's program in Electronic Government for public servants, a major textbook, research projects, and professional training.
- **Research with direct public-policy impact.** Contributed research, methodological guidance, and expert work to central, regional, and local public authorities, including co-development of Ukraine's national Concept for E-Governance, approved by the Cabinet of Ministers in 2010.
- **Forward-looking research trajectory.** Recent work brings long-standing governance expertise into contemporary questions of AI in public administration, digital competencies of public servants, digital inclusion, smart governance, disinformation, public-sector resilience during war, and responsible technological transformation.
- **Master and doctoral research leadership.** Supervised 60+ defended doctoral/PhD and Master's dissertations in public communication, e-governance, digital transformation, gender mainstreaming, and related fields; served as Guarantor of a PhD Program in Public Governance and Administration.
- **National higher-education leadership and quality assurance.** Held department-level leadership roles and contributed to the development of national standards for PhD, Master's, and Bachelor's programs in Public Governance and Administration, including program accreditation and academic quality assurance.
- **A Canada-Ukraine academic and educational bridge.** Combines senior academic and public-sector expertise from Ukraine with current Canadian postsecondary experience at George Brown Polytechnic in curriculum development, digital learning production, accessibility, authentic assessment, and responsible integration of emerging AI tools.

EDUCATION

- **Doctor of Science** (DSc) in Public Administration, National Academy of Public Administration under the President of Ukraine, Kyiv, 1999
- **PhD in Social Philosophy**, Taras Shevchenko National University of Kyiv, 1993

- **Specialist Degree in Philosophy (Ukrainian equivalent to a Master's degree)**, with Honours, Taras Shevchenko National University of Kyiv, 1989
- **International academic qualifications verified** by World Education Services (WES), Canada, 2023
- **Academic ranks**: Professor (2002) and Associate Professor (2000), National Academy of Public Administration under the President of Ukraine.

SELECTED PROFESSIONAL DEVELOPMENT

- Navigating AI: AI Agents for Public Service, Institute of Public Administration of Canada (IPAC), 2026
- AI Prompts for Gamified Learning Design, George Brown Polytechnic, 2026
- Introduction to AI Literacy, Acadia University, 2026
- Navigating AI: A Practical Guide for Public Servants, Institute of Public Administration of Canada (IPAC), 2025
- Prompt Engineering for Educators Specialization; Generative AI for Educators & Teachers Specialization; Generative AI Assistants Specialization, Vanderbilt University, 2024
- **TCPS 2: CORE 2022 Research Ethics, Panel on Research Ethics, Canada, 2023**
- Prompt Engineering Specialization; Generative AI for Leaders; ChatGPT Advanced Data Analysis; Innovative Teaching with ChatGPT, Vanderbilt University, 2023
- **Certificate in Curriculum Development, Canadian College of Educators, 2023**
- Generative AI for Everyone, DeepLearning.AI; AI Foundations: Prompt Engineering with ChatGPT, Arizona State University, 2023
- Enhanced Language Training - Teaching and Education, COSTI, Ontario, 2023
- Fundamentals of Test Theory, Development, and Review of Test Tasks, Ministry of Education and Science of Ukraine, 2021
- Expert on Accreditation of Educational Programs, National Agency for Quality Assurance in Higher Education of Ukraine, 2019
- Development of Civic Competencies of Civil Servants (DOCCU), Swiss-Ukrainian project, 2017
- Modernization of the Public Sector through the Implementation of E-Government, National University of Kyiv-Mohyla Academy / civil-service partners / Telenor, 2011
- Theory and Practice of Distance Learning, World Bank Global Development Learning Network / National Academy of Public Administration, 2001

ACADEMIC POSITIONS HELD

NATIONAL TECHNICAL UNIVERSITY IGOR SIKORSKY KYIV POLYTECHNIC INSTITUTE,
Department of Theory and Practice of Management, Sep 2013 - Sep 2025 | Kyiv, Ukraine

Head of the Department (Feb 2015 - Feb 2021)

- Provided academic and operational leadership for faculty work, program delivery, curriculum development, research, quality improvement, academic priorities, and institutional collaboration.
- Led and coordinated cross-functional academic initiatives and supported licensing/accreditation of Public Governance and Administration programs.

Professor of the Department (Sep 2013 - Sep 2025)

- Conducted research and delivered teaching across Public Administration, E-Governance, E-Democracy, Smart Cities, Communication, Digital Transformation, AI, and Sustainable Development, linking institutional analysis with practical questions of public-sector modernisation, citizen-government interaction, and technology-enabled governance.
- Developed and implemented Bachelor's, Master's, and PhD curricula in Public Governance and Administration; co-developed higher-education standards for all three levels and supported accreditation and program quality.
- Developed 10+ online and hybrid university courses and digital learning resources in Moodle; integrated active, project-based, case-based, collaborative, and research-informed learning.
- Supervised more than 60 doctoral and master's research projects in information policy, e-governance, e-democracy, public administration, smart cities, and digital transformation; advised on research design, data collection, dissertations, publications, and academic/professional development.
- Acted as Guarantor of the PhD Program in Public Governance and Administration (2018-2025) and a member of the scientific-methodological commission of the Master's program (2018-2025).
- Initiated and organised the 2021 Open University Student Olympiad in E-Governance at the National Technical University Igor Sikorsky Kyiv Polytechnic Institute, which attracted individual participants and teams from 19 higher-education institutions and linked academic competition with practical training and internship opportunities at national agencies.

NATIONAL ACADEMY OF PUBLIC ADMINISTRATION UNDER THE PRESIDENT OF UKRAINE | ***Kyiv, Ukraine***

Head, Department of Information Policy (Jan 2007 - Jan 2012*)*

- Led curriculum and faculty development, research, scholarly activity, and program improvement in public administration, information policy, and e-governance, helping establish e-governance as a sustained field of professional education, research, and public-sector capacity building.
- Developed an Educational Qualification and Master's program in Electronic Government for public servants, integrating public-administration theory, e-governance practice, digital-service delivery, and professional training for government and local-government officials.
- Initiated and led E-Governance Days in Ukraine (2008-2011), a national knowledge-mobilisation initiative that grew from 300 participants in 2008 to more than 1,000 in 2011 and brought together senior public officials, local authorities, academics, students, technology organisations, civil society, regional institutes, and international partners.

Professor & Deputy Head, Department of Information Policy (Oct 2001 - Jan 2007)

- Developed Master's-level specialisations in Information Processes in Public Administration and Information Policy & Information Technologies; designed distance-learning curricula in Information Policy and Public Relations.
- Designed and delivered 10 short-term professional training programs for public servants and developed an e-governance module for Master's curricula through an international public-administration reform project.

Associate Professor, Department of Philosophy and Methodology of Public Administration (Nov 1999 - Sep 2001)

- Developed and taught graduate courses in Information Society, Cultural Policy, and Public Administration.
- Delivered lectures and professional training for public servants.

UKRAINIAN MEDICAL DENTAL ACADEMY | *Poltava, Ukraine*

Assistant Professor (Aug 1993 - Sep 1996)

- Taught Philosophy, Sociology, Philosophical Anthropology, Deontology in Medicine, and Ethics.
- Developed curricula, syllabi, assessment plans, and learning resources.

PROFESSIONAL POSITIONS HELD

GEORGE BROWN POLYTECHNIC, June 2024 - April 2026 | *Toronto, Ontario, Canada*

Creative Producer (*Oct 2025 - April 2026)*

- Led and produced applied digital-learning content within multidisciplinary course-development initiatives, building on prior George Brown roles in curriculum and content development.
- Worked across learning design, digital production, accessibility, learner engagement, assessment, and responsible use of emerging AI tools in postsecondary education.

Content Producer (*Sep 2025 - Oct 2025)*

- Produced and refined digital learning content and interactive course assets for online and blended postsecondary delivery.

Curriculum Developer (*Jun 2024 - Sep 2025)*

- Contributed to 17 course initiatives and 50+ practice-oriented modules across Work-Integrated Learning, Regulatory Compliance, Financial Services, Hospitality & Tourism, Mass Timber, Entrepreneurship in Construction, and Nursing Transition to Practice.
- Created competency-based course frameworks, scenario-based activities, authentic assessments, H5P learning objects, and accessible online learning experiences in Brightspace (D2L).
- Collaborated with academic leaders, instructional designers, and subject-matter experts; aligned curriculum with learning outcomes, professional standards, AODA/WCAG accessibility expectations, and Canadian online-learning practices.

RESEARCH EXPERIENCE

AREAS OF RESEARCH

- Digital Governance & Public Policy
- E-Governance & E-Democracy
- AI in Public Administration
- Technology & Public Institutions
- Digital Public Services
- Public-Sector Digital Transformation
- Information Policy
- Government-Citizen Communication
- Digital Inclusion
- Smart Cities & Smart Governance
- Governance Resilience in Crisis and War
- Sustainable Development
- Higher-Education Innovation
- Curriculum Design & Digital Learning

RESEARCH TRAJECTORY

Social philosophy and public opinion information society and information policy government communication and public administration e-government and e-democracy digital public services, interoperability and electronic parliament smart cities and digital inclusion digital transformation, governance under crisis and war, and AI in public administration.

RESEARCH METHODS & ANALYTICAL EXPERTISE

Mixed-method research • Surveys and questionnaire design • Descriptive and multivariate analysis • Comparative case studies • Policy, regulatory and institutional analysis • Qualitative methods • Document and content analysis • Evidence synthesis • Scenario analysis and foresight • Needs assessment • Program evaluation • Research-to-policy translation

RESEARCH FUNDING, PROJECTS & LEADERSHIP

Funded / Sponsored Research

- 2024 - Principal Investigator / Scientific Supervisor, The Impact of Artificial Intelligence in Smart Tourism in Ukraine: Advantages and Threats in Wartime and Post-war Recovery, GISU Research 2024. Award reported as CNY 500,000. Mixed-method research on AI applications, data governance, privacy, misinformation, cybersecurity, economic impact, and policy recommendations.
- 2015-2017 - Expert, E-Governance for Accountability and Community Participation (EGAP), international project funded by the Government of Switzerland.
- 2008-2010 - Member, Working Group on the Concept for the Development of E-Governance in Ukraine; work supported by the International Renaissance Foundation. Concept approved by Cabinet of Ministers of Ukraine's Resolution No. 2250-r (13 Dec 2010).
- 2005-2008 - Expert, Promoting Public Administration Reform and Cooperation in the Field of Training of Civil Servants in Ukraine, implemented by the National Academy of Public Administration with the Higher School of Management and Law (Berlin) and German development cooperation support; developed an e-governance module for Master's curricula.
- 2021 - Research contract: Audit of Energoatom activities on social issues related to personnel and population within the Comprehensive Safety Upgrade Program for Ukrainian nuclear power units and the Environmental and Social Action Plan (Contract No. D/0201.01/3011.01).

Research Programs & Registered Projects

- 2023-2025 - Scientific Supervisor, Digital Transformation of Public Administration and Local Government: Challenges and Opportunities for Achieving the SDGs (SR No. 0123U101483). Themes include wartime public information, disinformation, OSINT, AI risks, and institutional responses to generative AI.
- 2022-2023 - GISU Alliance project on innovative business strategies, smart tourism, resilience, and regenerative recovery following COVID-19.
- 2018-2020 - Scientific Supervisor, Modern Trends in the Implementation of E-Governance in Ukraine: Best Practices (SR No. 0118U100305).
- 2016-2018 - Scientific Supervisor, Impact of E-Governance on Social Transformations (SR No. 0115U000019).
- 2010-2011 - Scientific Supervisor, Theoretical, Methodological, Organizational and Institutional Principles of E-Governance Implementation (SR No. 0201U004833).
- 2009-2010 - Scientific Supervisor, Establishing Mechanisms for Effective Interaction between Government, the Public and the Media: Theoretical and Applied Aspects (SR No. 0109U003027).

- 2008 - Scientific Supervisor, Public Relations in Public Administration: Theoretical and Applied Aspects (SR No. 0107U005909).

Selected Research Proposals & Project Development

- 2022 - Digital Inclusion of Vulnerable Groups in Smart Cities for Sustainable Development - research proposal to the National Research Foundation of Ukraine; proposed digital-inclusion metrics, mixed-method needs assessment, scenario analysis, and a roadmap for digital justice.
- 2022 - Digital Skills and Access to Digital Technologies as a Pathway toward Social Inclusion: The Case of Ukrainian Forced Female Migrants in Latvia - Ukrainian Latvian research proposal.
- 2022 - Digital and Educational Reintegration of Youth from De-Occupied and Temporarily Occupied Territories in the Context of National Security - research proposal.
- 2021 - Digital Educational Reintegration of Youth from Temporarily Occupied Territories of Ukraine in the Context of Achieving Sustainable Development Goals - research proposal.

PUBLICATIONS

Publication record: 130+ scientific and scholarly articles reported in institutional records, together with 2 monographs and 8 textbooks/teaching manuals. Selected and verified works are listed below; complete records are available through Google Scholar and ORCID.

PUBLIC POLICY, GOVERNMENT & KNOWLEDGE MOBILIZATION

Research-to-Policy and Government Collaboration

- Co-developed the Concept for E-Governance in Ukraine, approved by the Cabinet of Ministers of Ukraine (Resolution No. 2250-r, 13 December 2010), translating academic research and international practice into a national policy framework for digital government.
- Achieved documented research-to-practice implementation: research on e-governance and government-public communication applied by the Secretariat of the Cabinet of Ministers of Ukraine and other public authorities, connecting scholarly outputs with administrative modernisation and professional practice.
- Collaborated with the State Committee for Informatization of Ukraine through the working group on the national e-governance concept and served on its Public Council (2008-2011).
- Participated in the Secretariat of the President of Ukraine working group on the creation and operation of a modern information system for local state administrations (2008-2009).

- Served on the National Security and Defense Council's (NSDC) inter-agency working group on procedures for implementation of NSDC decisions by the Cabinet of Ministers of Ukraine (2009-2011).
- Member, Scientific and Technical Council of the Kyiv Regional State Administration (2021-present), evaluating local-development projects and programs, including initiatives related to digital transformation and regional development.
- Expert, National Research Foundation of Ukraine (2020-present), providing national-level peer review and evaluation of competitive research proposals.

Regional and Local Government Collaboration

- Worked with the Kherson Regional State Administration on research implementation, public communication, and the project 'Mechanisms for the Formation of the Presidential Personnel Reserve - New Elite of the Nation' at the regional level.
- Research results and methodological recommendations were implemented by the Department of Press and Information of the Kherson Regional State Administration and the Education Department of the Novovorontsov District State Administration.
- Developed and supported the pilot 'School of E-Governance' in the Novovorontsov district of Kherson region, including assessment of civic responsibility and practical application of e-governance approaches.
- Contributed to a civic-responsibility communication project implemented in cooperation with the Council of Ministers of the Autonomous Republic of Crimea and to methodological work on effective government-public-media interaction.
- Member, Working Group on e-governance implementation in the City of Brovary (2006-2009), contributing to local-government digital transformation.
- Conducted research, developed methodological materials, delivered professional training, and formulated recommendations for civil servants and local-government officials responsible for e-governance projects, communication with citizens, public information, and digital service delivery.

E-Governance Days: National Knowledge Mobilisation

- Initiated and organised E-Governance Days under the framework of World Telecommunication and Information Society Day, bringing together academics, government officials, business representatives, and others: 300 participants in 2008; 400+ in 2009; 400+ in 2010; and more than 1,000 participants in 2011.
- Expanded participation beyond Kyiv through videoconferencing with regional institutes in Dnipropetrovsk, Odesa, Lviv, and Kharkiv, and through live online broadcasting, enabling participation by academics, representatives of local executive authorities and others.
- Structured the initiative around plenary sessions, working groups, demonstrations, and policy discussion on e-governance and e-democracy. Conference recommendations were included in the Cabinet of Ministers' communication with central and local executive authorities.

Open University Student Olympiad in E-Governance

- Initiated and organised the 2021 Open University Student Olympiad in E-Governance at National Technical University Igor Sikorsky Kyiv Polytechnic Institute. It combined individual and team competitions with training on e-democracy, AI, electronic services, digital transformation, and youth participation; 69 individuals from 19 universities registered for the individual competition and 7 teams from 6 universities participated in the team competition. Official event page

- The Olympiad connected higher education with public-sector practice: training included contributions from EGAP, the Ministry of Digital Transformation, the Ministry of Education and Science, and other partners; winning teams received internship opportunities with national ministries.

TEACHING & CURRICULUM DEVELOPMENT

Teaching Experience by Academic Stage

- ***National Technical University Igor Sikorsky Kyiv Polytechnic Institute*** (2013-2025): taught and developed courses in Public Governance and Administration, Fundamentals of E-Governance, Electronic Democracy, E-Governance and E-Democracy, Smart Cities, Communication Campaigns, Strategic Directions of E-Governance Development, Digital Transformation, and related fields at Bachelor's, Master's and doctoral levels.
- ***• National Academy of Public Administration*** (1999-2012): taught Master's-level and professional programs in Information Policy, Public Relations, Information Processes in Public Administration, Information Society, Cultural Policy, E-Governance, and Communications in Public Administration; designed 10 short-term training programs and delivered professional lectures/training for public servants
- ***Ukrainian Medical Dental Academy*** (1993-1996): taught Philosophy, Sociology, Philosophical Anthropology, Deontology in Medicine, and Ethics; developed syllabi, semester plans, assessments, reading lists, and instructional resources.
- ***George Brown Polytechnic*** (2024-2026): curriculum development and digital-learning production across 17 course initiatives and 50+ practice-oriented modules in online/blended learning, using Brightspace (D2L), H5P, scenario-based learning, authentic assessment, accessible design, and industry-aligned pedagogy.

Pedagogy & Curriculum Innovation

- Teaching philosophy emphasising critical thinking, ethical public leadership, applied problem-solving, international and comparative perspectives, inclusive learning, and critical evaluation of technology's social and institutional impacts.
- Use case studies, simulations, scenario-based learning, project-based learning, teamwork, field research, brainstorming, expert evaluation, authentic assessment, and digital learning to connect theory with real public-sector challenges.
- Developed the educational innovation practice 'Master, Explore, implement' to cultivate leadership, teamwork, evidence-based decision-making, communication, research, creativity, conflict-resolution and e-governance competencies.
- Designed interactive learning simulations including SMART CITY: FUTURE - TODAY and CHANGE FOR THE BETTER, integrating public-management theory, stakeholder analysis, and applied decision-making.
- Developed 10+ online/hybrid university courses, including certified Moodle distance courses in Smart Cities, Fundamentals of E-Governance, E-Democracy, and E-Governance & E-Democracy.

GRADUATE & DOCTORAL SUPERVISION

Graduate supervision has been a sustained part of the academic profile, spanning public administration, information policy, e-governance, e-democracy, digital public services, smart cities, public communication, data analytics, Internet of Things, public procurement, interoperability, digital inclusion, and public-sector digital transformation.

Master's Supervision

- Supervised more than 60 Master's theses over the course of an academic career at the National Academy of Public Administration and National Technical University Igor Sikorsky Kyiv Polytechnic Institute. Core supervision fields include information policy, public communication, e-governance, e-democracy, electronic public services, public procurement, interoperability, digital inclusion, smart cities, data analytics, Internet of Things, mobile government, and public-sector digital transformation.
- Supervision has included research-question formulation, literature and policy review, research design, qualitative and quantitative methods, data collection and analysis, comparative case studies, preparation of recommendations for public authorities, academic writing, defence preparation, and publication development.

Publicly Verifiable Master's Theses Supervised at National Technical University "Igor Sikorsky Kyiv Polytechnic Institute"

2024 - Daria Kostiuk - Improving Government-Citizen Interaction through Mobile Applications. Research addressed mobile government, public e-services, citizen satisfaction, the Diia ecosystem, and local/state mobile applications. [KPI record]

2023 - Alla Karapoziuk - Digitalization of Archival Processes in the Context of Formation of the National Archival Fund and Its Integration into the Global Information Space. Research examined digital archives, electronic records, cloud technologies, AI, and public policy in archival administration. [KPI record]

2021 - Anna Kruts - Application of Internet of Things Technologies in Sectoral E-Governance: International and Ukrainian Experience. [KPI record]

2021 - Mariia Ruban - Digital Marketing in Communications of Public Administration Bodies: International Experience and Ukrainian Practices. [KPI record]

2020 - Nazarii Volytskyi - Data Analytics in Public Administration: International and Ukrainian Experience. [KPI record]

2020 - Vladyslav Trachuk - Introducing Electronic Services in the Reintegration of Temporarily Non-Government-Controlled Territories. [KPI record]

2020 - Ruslana Volochai - Using E-Democracy Tools to Improve Interaction between Government and Citizens. [KPI record]

2019 - Andrii Puchynets - Government Portal as a Tool for Implementing E-Governance. [KPI record]

2019 - Tetiana Tsiptsiura - Introducing Electronic Services for Vulnerable Population Groups: International and Ukrainian Experience. [KPI record]

2019 - Khrystyna Hyrenko - Implementation of Electronic Services at the Municipal Level: Best European Practices. [KPI record]

2018 - Arina Kuts - Mechanisms of State Regulation of Public Procurement. Research examined e-procurement architecture, ProZorro, regulatory mechanisms, transparency, monitoring, and anti-corruption implications. [KPI record]

2018 - Karina Prylepko - Establishing Electronic Interagency Cooperation among Ukrainian Public Authorities with Reference to International Experience. [KPI record]

Doctoral / PhD Supervision - Defended Dissertations

2025 - Anna Ishchenko - PhD in Public Governance and Administration, Digital Transformation of Public Administration in the Context of Gender Mainstreaming, National Technical University Igor Sikorsky Kyiv Polytechnic Institute. [Dissertation record]

2018 - Valeriy Dmytrenko - Candidate of Sciences in Public Administration, Mechanisms for Implementing E-Governance at the Local Level. Research developed recommendations on local e-governance, smart cities, interoperability, multi-level coordination, and citizen participation. [Dissertation record]

2009 - Tetiana Illiuk - Candidate of Sciences in Public Administration, Government Information Campaigns on European Integration in Poland: A Theoretical and Methodological Approach. Research compared Polish and Ukrainian public-information campaigns and developed recommendations for public communication on European integration. [Dissertation record]

2009 - Oleksandr Poprotskyi - Candidate of Sciences in Public Administration, Formation of Public Opinion: Mechanisms of State Regulation of Information Flows. The dissertation examined public opinion, information flows, public communication, and state regulatory mechanisms. [Dissertation record]

2003 - Oleg Grygor - Candidate of Sciences in Public Administration, Formation of the Information Society in Ukraine in the Context of Integration into the European Union (Public-Administration Aspect). The dissertation examined state policy and governance mechanisms for information-society development in the context of European integration. [Dissertation record]

Current / Recent Doctoral Research Supervision

- Anna Kruts - doctoral research topic: Use of Artificial Intelligence in the Modernization of Public Administration and E-Governance in Ukraine. The research extends earlier supervised work on Internet of Things in sectoral e-governance toward AI-enabled modernisation of public administration. [KPI PhD record]
- Served as Guarantor of the PhD Program in Public Governance and Administration at National Technical University Igor Sikorsky Kyiv Polytechnic Institute (2018-2025) and as a member of specialised academic councils for dissertation defence in Public Administration.

Selected Student Research Projects & Academic Mentoring

2021 - Oleksandra Shyts - Introducing Social Inclusion in Smart Cities: Best International and Ukrainian Experience. [Department research record]

2020 - Anna Kruts - Introducing Electronic Health Services Using Internet of Things Technologies. [Department research record]

2019 - Kateryna Feshchenko - Best International Practices in Smart-City Development and Opportunities for Their Implementation in Ukraine. [Department research record]

2018 - Mariia Pashchak and Olha Plotnikova - Directions for Implementing the E-Governance Development Experience of Chile and Belgium in Ukraine. [Department research record]

2018 - Arina Kuts - Transitioning Procurement to Electronic Format as an Effective Anti-Corruption Tool. [Department research record]

2018 - Karina Prylepko - Introducing Electronic Interoperability as a Necessary Condition for E-Governance Development: International and Ukrainian Experience. [Department research record]

2017 - Kateryna Konashevska and Olena Kyseliova - Implementing the E-Democracy Development Experience of Japan and New Zealand in Ukraine. [Department research record]

2017 - V. Poliarna and V. Riabets - European Practices of Electronic-Service Delivery in Law Enforcement and Prospects for Their Implementation in Ukraine. [Department research record]

Supervised 11 student research projects that received prizes in national competitions in Public Governance and Administration; several projects developed into conference papers and peer-reviewed publications.

ACADEMIC LEADERSHIP, GOVERNANCE & QUALITY ASSURANCE

- 2019-2020 - Deputy Chair, Sectoral Expert Council in Public Governance and Administration, National Agency for Quality Assurance in Higher Education of Ukraine.
- 2016-2019 - Chair, Sub-commission on Public Governance and Administration, Scientific and Methodological Council, Ministry of Education and Science of Ukraine.
- 2018-2025 - Guarantor, PhD Program in Public Governance and Administration, National Technical University Igor Sikorsky Kyiv Polytechnic Institute.
- 2018-2025 - Member, Scientific and Methodological Commission, Master's Program in Public Governance and Administration, National Technical University Igor Sikorsky Kyiv Polytechnic Institute.
- 2019-present - Member, Commission for proposals to legislative and normative documents, Academic Council, National Technical University Igor Sikorsky Kyiv Polytechnic Institute.
- 2008-2012 - Member, Scientific and Methodological Council in Public Administration, Ministry of Education and Science of Ukraine.
- Co-developer of national higher-education standards for Bachelor's, Master's, and PhD programs in Public Governance and Administration; extensive experience in accreditation, licensing, program review, and quality assurance.

Selected Institutional Contributions

- **Program architecture and standards.** Co-developed national higher-education standards for Bachelor's, Master's, and PhD programs in Public Governance and Administration and contributed to program licensing, accreditation, and continuous improvement.
- **Doctoral-program stewardship.** Served as Guarantor of the PhD Program in Public Governance and Administration (2018-2025), supporting academic quality, research supervision, and program development.
- **National academic service.** Held leadership and expert roles in the Ministry of Education and Science, the National Agency for Quality Assurance in Higher Education, and the National Research Foundation of Ukraine.

EDITORIAL, PEER-REVIEW & SCHOLARLY SERVICE

- 2023 - Reviewer, Journal of Information Policy, manuscript on ICT in governance and e-governance initiatives in India.
- 2009-2011 - Editor-in-Chief, International Professional Scientific Journal 'E-Governance'.
- 2008-2012 - Editorial Board Member, 'Democratic Governance'.
- 2006-2012 - Editorial Board Member, Bulletin and Collection of Scientific Papers, National Academy of Public Administration.
- 2010-2011 - Editorial Board Member, 'Strategic Priorities'.
- 2021 - Grant Reviewer, National Research Foundation of Ukraine: projects on infodemics, web-community management under COVID-19, and postgraduate teacher education under unpredictable impacts.
- 2021 - Manuscript Reviewer, study on the Unified Professional Entrance Test, regulatory influence, and educational-services effectiveness.

INVITED TALKS, PRESENTATIONS & KNOWLEDGE MOBILIZATION

Conference Leadership & Organisation

- 2023 - XII International Scientific-Practical Conference Modern Management Problems, National Technical University Igor Sikorsky Kyiv Polytechnic Institute - Head/Moderator, Section 3: Public Administration and Artificial Intelligence: Challenges and Opportunities; conference presentation on Latest Practices in the Use of Artificial Intelligence Tools in Public Administration. [Official page]
- 2021 - XI International Scientific-Practical Conference Modern Management Problems: Transformation of Public Administration in the Post-COVID World - Head, Section 4: Digital Transformation of Public Administration: Trends and Challenges. [Official page]
- 2019 - X International Scientific-Practical Conference Modern Management Problems: Management in the Context of Digital Transformations - Chair, Section 1: Transformation of Public Administration in Modern Ukraine under the Formation of a Digital Society. [Official page]
- 2013-2024 - Participant and Organizing Committee member for the recurring international scientific-practical conference Modern Management Problems at National Technical University Igor Sikorsky Kyiv Polytechnic Institute, contributing to program development, section leadership, research dissemination, and student/early-career participation. [Official page]

Selected International & National Conference / Symposium Presentations

2023 - Business Rejuvenation, Resilience, and Creativity in a Changing World and Post-Pandemic Future, GISU International Research Symposium, co-hosted by Guangzhou University and Western Sydney University - The Smart Tourism during the War and Post-War Recovery: The Case of Ukraine. [Source]

2023 - XII International Scientific-Practical Conference Modern Management Problems - AI in Public Administration: Threats and Challenges (published conference contribution); also presented on latest practices in the use of AI tools in public administration. [Source]

2021 - XI International Scientific-Practical Conference Modern Management Problems: Transformation of Public Administration in the Post-COVID World - Public Governance and COVID-19: Challenges and Digital Transformation. [Source]

2019 - X International Scientific-Practical Conference Modern Management Problems: Management in the Context of Digital Transformations - From E-Government to Smart Governance: Current Challenges and Threats. [Source]

2019 - Round Table, Information, Legal, Organizational and Management Support for Innovative Development of the Region, Vinnytsia - Introduction of Electronic Services in Ukraine for Vulnerable Categories of Citizens. [Source]

2018 - All-Ukrainian Scientific-Practical Conference Forum of Direct Democracy, Kyiv - Electronic Democracy in Ukraine: Victories and Obstacles. [Source]

1998 - All-Ukrainian Scientific Conference Problems of Democratization of Post-Communist Society in the Context of European Experience - Hobbes's Theory of the State as a Precondition of Culture in the Context of Contemporary Problems of Democratization of Ukrainian Society. [Source]

Invited Talks, AI Training & Public Knowledge Mobilisation

2024 - GPTs Development Training 3 (online) - development of a custom GPT 'Expert in the Development of E-Governance' and practical lessons from custom-GPT design. [Link]

2024 - GPTs Development Training 2 (online) - development of a Bachelor's Thesis Writing Advisor and an E-Governance Development Expert. [Link]

2024 - GPTs Development Training 1 (online) - demonstration of a Curriculum Development Consultant informed by Canadian/Ontario experience and development of a Bachelor's Thesis Writing Advisor. [Link]

2024 - Training on Generative Artificial Intelligence (online). [Link]

2023 - Professional Skills Training: Job Search and Artificial Intelligence - Challenges and Opportunities (online). [Link]

2023 - The War in Ukraine: How Social Media & E-Messaging Are the Real Weapons in This War - invited public talk, Rotary Club, Kingston, Ontario. [Link]

SELECTED HONOURS, AWARDS & RECOGNITION

2023 - Gratitude, Faculty of Sociology and Law, National Technical University Igor Sikorsky Kyiv Polytechnic Institute.

2023 - Recognition for supervision of the 1st-place winner, international student research competition on management, social and behavioural sciences in sustainable development, Ivano-Frankivsk National Technical University of Oil and Gas.

2022 - Recognition for supervision of the 2nd-place winner in the same international student research competition.

2021 - 2nd Prize, National Agency on Civil Service of Ukraine, Best Practices for Educational Innovation in Professional Training of Civil Servants, Master's degree in Public Governance and Administration.

2021 - Recognition for supervision of a 2nd-place student research project in Public Governance and Administration, Vadym Hetman Kyiv National Economic University.

2020 - 3rd Prize, National Agency on Civil Service of Ukraine, Best Practices for Educational Innovation in Professional Training of Civil Servants.

2020 - Recognition for supervision of a 3rd-place student research project in Public Governance and Administration, Kyiv National University of Trade and Economics.

2019 - Gratitude, Ministry of Education and Science of Ukraine.

2019 - Recognition for supervision of 1st- and 2nd-place student research projects in Public Governance and Administration.

2018 - Honorary Award of the Academic Council, National Technical University Igor Sikorsky Kyiv Polytechnic Institute.

2018 - Recognition for supervision of 1st- and 2nd-place student research projects in Public Governance and Administration.

2002 - Diploma of Honour, National Academy of Public Administration under the President of Ukraine.
